EXPERIENCE

CTO, PayMidas

2026 – now

- **Smart Escrow.** Escrow for law firms handling property and other high-value deals.
- **Payments API.** Lets partners use a licensed banking provider without integrating with it directly.
- **White-label platform.** A starting point for new financial products, rebranded from one config file.
- **Group websites.** Marketing sites for the PayMidas group, from one monorepo with a shared CMS.
- **Legacy rebuilds.** Updating partners' older payment apps without replacing their backends.

Senior Software Engineer, Jumptech

2021 – 2026

Software Engineer until 2024

- Built an AI image-analysis pipeline: a YOLO classifier on SageMaker and LangGraph agents on ECS.
- Built an MCP server for the Jumptech API and got the team using Claude Code.
- Owned the grid-connection integration for EV chargers, solar, batteries and heat pumps.
- Cut new-customer setup from hours to minutes with a workflow-cloning pipeline.
- Built document packs with automatically generated electrical certificates.
- Led a zero-downtime DynamoDB migration and mentored a junior engineer.

Full Stack Engineer, IRMACOS

2020 – 2021

Self-employed

- IoT platform: Java services configuring ESP32 devices over MQTT, Kafka between services, and a Node and Postgres API with a React admin app.

Graduate Software Engineer, Ratio

2019 – 2020

- An access-control service in Go on Lambda and DynamoDB, plus Node and Go APIs for internal reporting.

Trainee Applications Developer, Fivium

2017 – 2018

Placement year

EDUCATION

BSc Computer Science, First Class, University of Surrey

2015 – 2019

AI Engineering, Turing College (6 months)

Oracle Certified Associate (SQL)

Cisco Certified Network Associate (CCNA)

SKILLS

Languages	TypeScript, Python, Go, Swift, Java, SQL
Frontend	React, TanStack Start, Astro, Tailwind, Expo / React Native, SwiftUI
Backend	Node, Hono, Cloudflare Workers, AWS (Lambda, ECS, SageMaker, DynamoDB)
Data	Postgres, Drizzle, Kysely, DynamoDB, SQL Server
AI	Claude API, MCP, LangGraph, agentic development
